

## ZENITH PILOT EXTRA SPECIAL CHRONOGRAPH

An imposing bronze case, a wide ratcheted easily adjustable crown, oversized luminescent numerals and a high-beat El Primero mechanism: the new "Pilot" by Zenith proudly flaunts the DNA of a line of airborne conquerors. In 2017, this famous aviator's watch with its distinctive design expresses its trailblazing style in chronograph mode. With its sandblasted black dial and its khaki green oily nubuck leather strap, it showcases a neo-retro look fuelled by an adventurous spirit. Exactly like that of the aviation pioneers that the Manufacture accompanied right from the early days of flight.
