## BRITISH RACING GREEN

### "MOTION IS TRANQUILITY"

Since 1834, the WOLF mark has been a symbol of decades of innovation and the pursuit of the perfect design. Their new British Racing Green collection includes a range of watch winders available in single, double and triple versions, along with watch boxes for 8-10 piece collections and a triple watch roll.

"Motion is tranquility": a simple, fitting quote from Sir Stirling Moss, considered the greatest Formula 1 driver of all time. WOLF's latest British Racing Green collection is a tribute to the illegal racing that took place in Ireland in the early 1900s, the fine pebble grain leather and sumptuous interior suede details harking back to a long-passed era of iconic cars and heroic drivers.

The collection includes a range of watch winders available in single, double and triple versions, along with watch boxes for 8-10 piece collections and a triple watch roll.

Retail prices:

Watch Winder: \$675.00-\$1955.00

Watch Box: \$385.00 - \$485.00

Watch Roll: \$260.00

---

The new British Racing Green collection: a WOLF winder is a handmade precision instrument, covered by a 2-year warranty, whose date of manufacture can be traced by its serial number.
