## ROSE SANEUIL "THE QUETZAL"

### PUTTING CRAFTSMANSHIP BACK AT THE HEART OF WATCHMAKING

Xavier Rousset is the creator and developer of a new watch brand. His first model, the XRby Rose Saneuil, features on its dial a brightly coloured quetzal crafted in wood and leather marquetry. Rose Saneuil is a French marquetry specialist based in Montrouge, near Paris. Xavier Rousset's ambition is to connect people and Métiers d'Art specialists around a shared passion for arts and crafts. The results are limited series of timepieces in whose conception and design the customers are also closely involved. [www.xrby.art](http://www.xrby.art)
